

Evaluation of the organization and activities of the YE "Can't You SEA?". Agreement No: 2024-3-CY01-KA152-YOU-000288459 from participants.

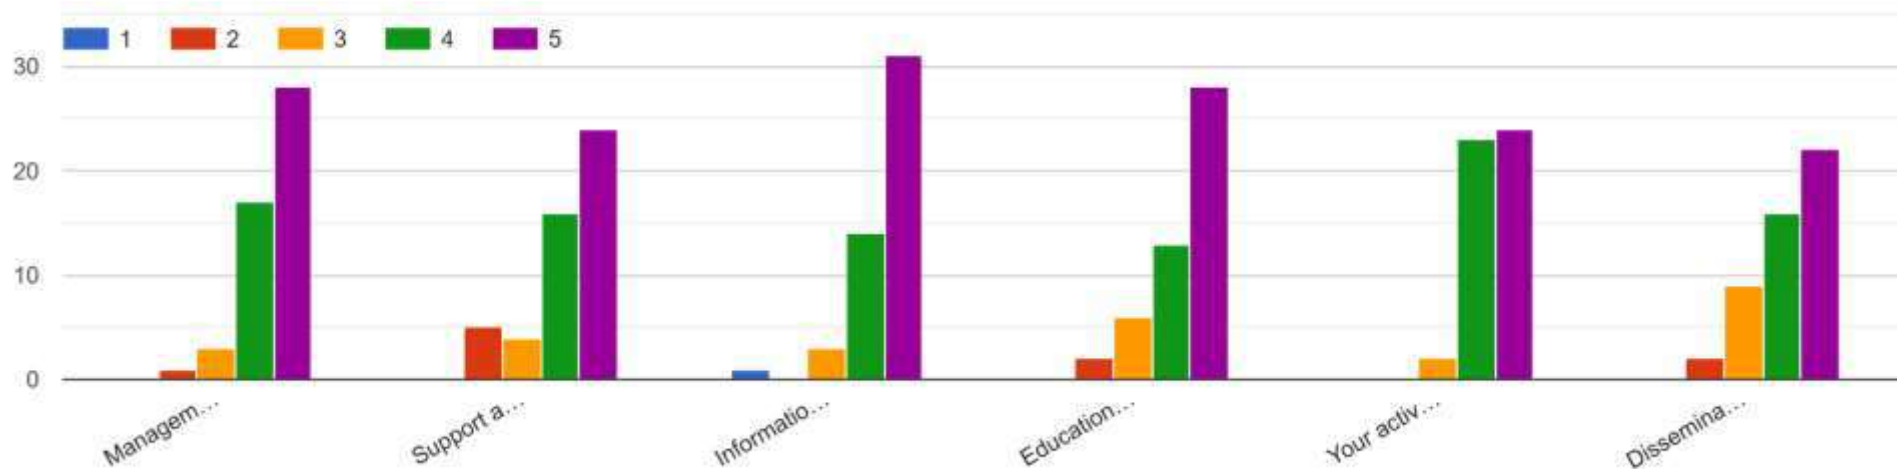

On the last day of the YE **Can't You SEA?** (on 20th of November 2025) of our activities participants of the project answered online the following questionnaire.

We would like to have your opinion about our YE, that took place in PISSOURI, LIMASSOL, CYPRUS (HYLATIO TOURIST VILLAGE) regarding the overall youth exchange organization and the activities we had; educational, cultural and others.

The questionnaire is divided in five sections and we would like to gather your feedback because your opinion is important to us and will also help us to improve. This questionnaire is only for participants AND LEADERS in the youth exchange.

Management and Organisation Questions

The following questions are about the project's overall organization. Answers are from one to 5 where one is the very negative answer and 5 the very positive answer. With the following order: 1. Highly ...onse must be your personal opinion depending on your own experience.

Do u want to mention anything about management - information send and other organisational themes of the project?

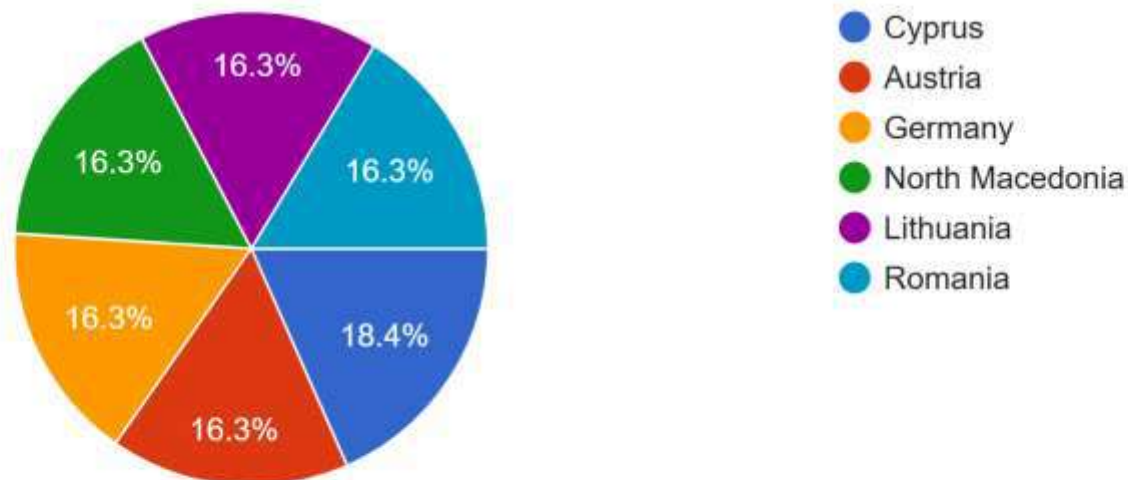

No
No I don't
The timetable from the last days wasn't that great but the rest was really nice
No
Stick to timetables and keep them updated tell
Leaders in time maybe in the beginning of the project of they shall make a Programm and not the day before.
Well the management was wonderful 😊👍, and I like it, I hope that I will participate in projects like these in the future
Everything was perfect
Bobby and elena was great
Be more

Everything was well organized
Management was amazing everything was excellent favorite project ever
I wish we had more activities about the theme of the project, because I believe that there were a lot of activities that weren't related to the pollution.
Everything was great I enjoyed this project so much! Would've been nice to know about online meetings and the timetable earlier :)
It was amazing
I loved the energy from every single team and also the facilitators
No, I enjoyed the whole project! Bobbie and Elena did a great job managing it!

The timetable and plan for the week should be announced earlier.
It was very smooth organisation, a lot of logistics but very well organised.
No.
The information beforehand in the Whatsapp group, the websites and the meetings was a bit overwhelming and not always clear
aware of the time and keep the timetable updated
The management of the project and the information provided were well-organized and easy to follow

Any comments about the activities?

Conference on the last day was not good
Well as I said ,I would say that I like these kind of activities because of the tasks we had to do and people were also involved and all the activities were energetic and full of life 😊, I learned something completely new about the pollution and what impact does it have on the environment
It was very fun!!!!

I think I would say that there were a lot of activities that had nothing to do with the theme but besides that it was ok

I enjoyed most of them, and the facilitators made even the boring ones, interesting

Always count to form groups, if you let them choose on their own, some will feel left out

All of the activities were good

I liked the activities, especially Austrian one.

I really liked how Bobbie and Elena managed the activities, but I wish we had more activities related to the trash gathering and the sea pollution in which we were actively engaging in the problems we talked about.

They where all perfect and very educational, but I didn't really liked the last activity about the lectures in Limassol

I would have preferred more input. We mostly worked with information from participants. Why not read a text or watch a documentary at some point. I have no information about how big the problem of pollution actually is. I would have loved to learn more.

Most fun activities i have attended since i started going to projects. Everything was very informative but also making it fun so everybody can learn something new.

The activities were very great, I really liked that I had an opportunity to speak to the other participants since i'm very shy and I don't talk a lot. Everyone had an amazing vibe plus very friendly and welcoming!

The ones with little to no interaction between us were rather tiring.

I don't really have anything to say I really enjoyed the activities that we had and it was really fun

They were very energizing, I learned a lot of new things and I loved the way they explained the tasks
Some of them ware interesting but like 4 max got really boring fast

Big love for the Energizer, a bit more Deep discussions about the topic,

The conference the last day was not so good
Time management wasn't great, a lot of times parts of the people had to wait and just stand around. Sometimes activities were rather just to waste time, would be great to have more free time if there's no useful activities planned (leaders session)

I really liked the variety of the activities that we did and the mix of having fun and working on the topic
Fun

They activaties were very fun and exciting.
They were really creative really interesting
everything was planned so good

No

Very fun and amazing

The activities very really interesting and very different thinks, so I think there was something for everyone

Yes, I really enjoyed all the activities that we did. As specially the hike and the energizers.

Most of them were interesting and fun
- loved the balance between input and trips/free time to explore and work on projects - loved the creative approach to many workshops - the energizers were so fun to do

There were amazing

I loved all of them! They were both fun and educational
everything is fine

Superbly organised and very educational
the conference on the last day was very unnecessary and didn't have anything to do with our topic.

Every activity was so fun but I really loved the activity with the tasks in Pissuri

I loved them all

All of them we're amazing, the only things that bothered me we're the workshops with excesive explaining that required no implication from the participants bcs it made me tired

Any additional comments?

Getting information earlier/ in advance to be able to adjust (before online calls, then knowing about technical activities so taking a laptop per group would have been good etc)

Thank you very much for everything!!!! ❤️

I believe that the participants would have loved instead o the lectures to explore the Limassol Marina and Agora.

Overall, i would do it again

Can't wait to come again:))

I fell in love with Cyprus and I don't want to leave anymore.

I loved how friendly all the leaders and hosts were

thank you to the leaders, they did an amazing job at managing and executing the activities:)

Everything was perfect

Well first thank you about the projection, it was a wonderful as I said, and the people I

The energizers were the best and each one was unique because every country had her own energizer

The food is super good

I enjoyed that we also had activities with people from other organizations, like the one when we gathered trash from the beach.

We love it 😊

No everything was perfect

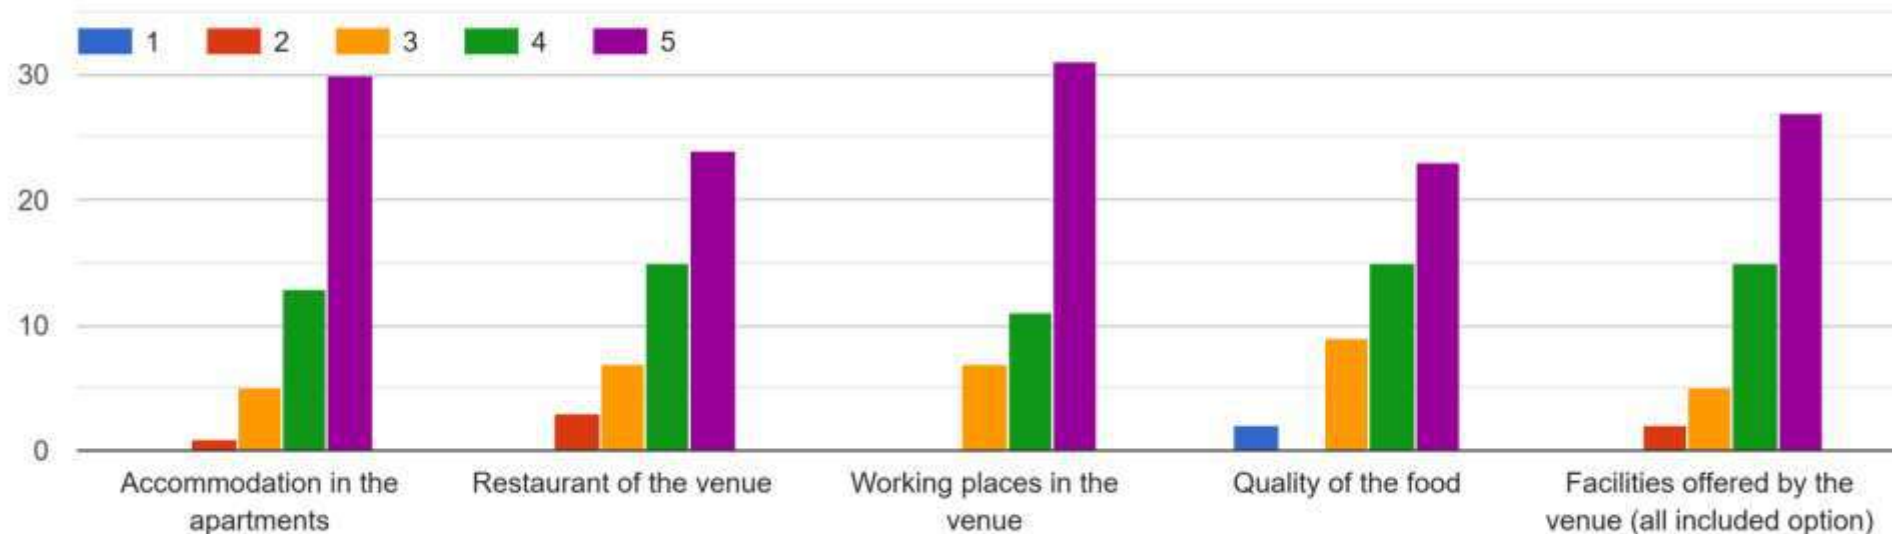

It was an amazing opportunity

The activities were great, but unfortunately they were mostly superficial. I would have wished for more depth in the content, with the topic being explored on a more meta level.

made and the friends I made from another countries, wonderful, I didn't have like emotions bcs I knew that there were also people that the English wasn't they're first language Btw didn't like the hike very hard 😊 (lol)

Accommodation and Food of the Training

Within your recent stay in HYLATIO TOURIST VILLAGE, PISSOURI, LIMASSOL, CYPRUS for the need of the training please rate your overall satisfaction with:

Anything that you want to mention in particular that will make us better about our future projects which have to do with the accommodation place and the food in the project

Not too oily food

The breakfast everyday was the same, English type. A lot of participants didn't enjoyed it because it was really different from our cultures

I think the place was amazing also the food Maybe sent staff to clean the rooms and change the bin bags more often.

In the morning it's only salty things, but it's not that bad

Well nothing, I liked the project and the food also, very yummy 😊 😊
Change towels regularly

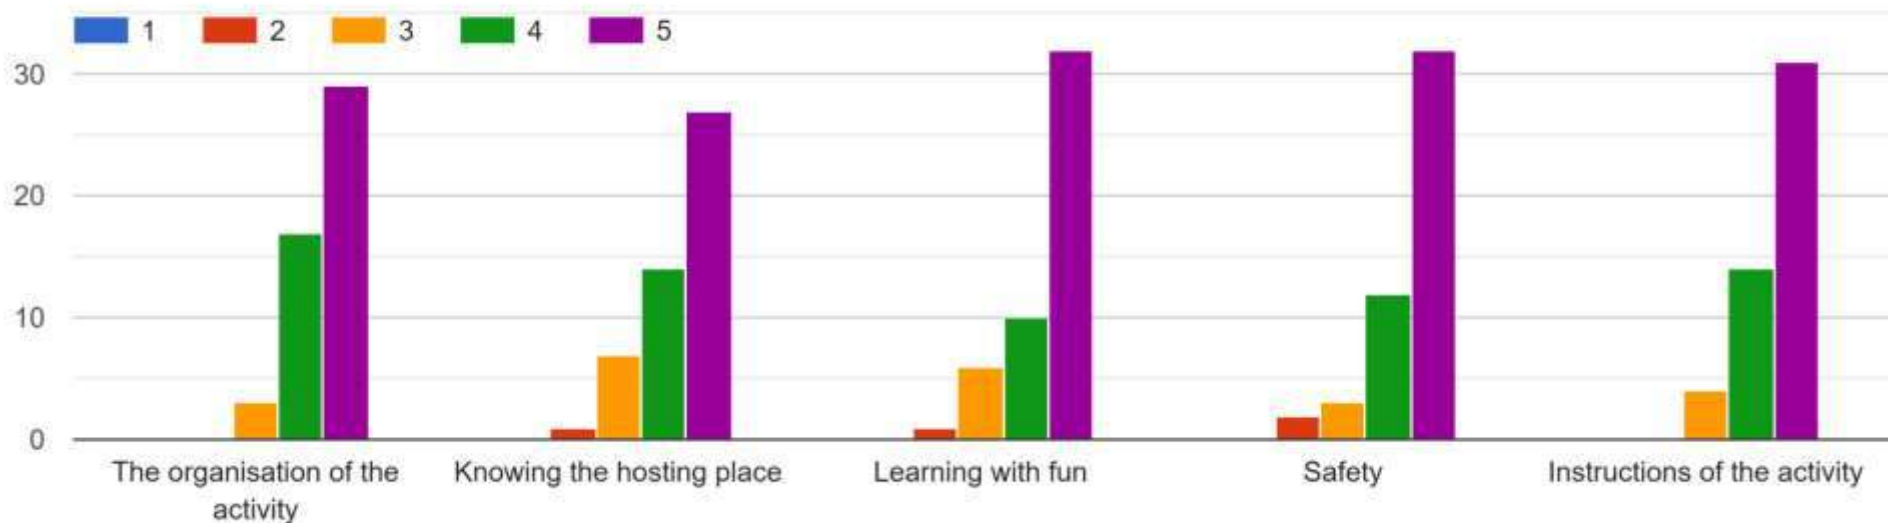

For future projects I would definitely look out for people who are vegetarian or vegan, since we were only a few people now it didn't matter but if there is a larger group, another vegetarian option would be amazing (but not necessary)
 Η καθαριότητα στο δωμάτιο δεν ήταν καθόλου καλή
 I liked everything. Everything was good
 Not very good for vegans
 Everything regarding the accommodation was amazing.
 can we have a broom in the room?

Everything is good for me i just heard the vegan options were not the best. Personally for me it was so good.
 There were a lot of ants in the room on the floor
 The accommodation and food were nice, and I appreciated the effort put into them. For future projects, offering a bit more meal variety and ensuring the accommodation details are shared earlier would be great
 At the beginning No variety of vegetarian good, got better with the following days, big thank you for that

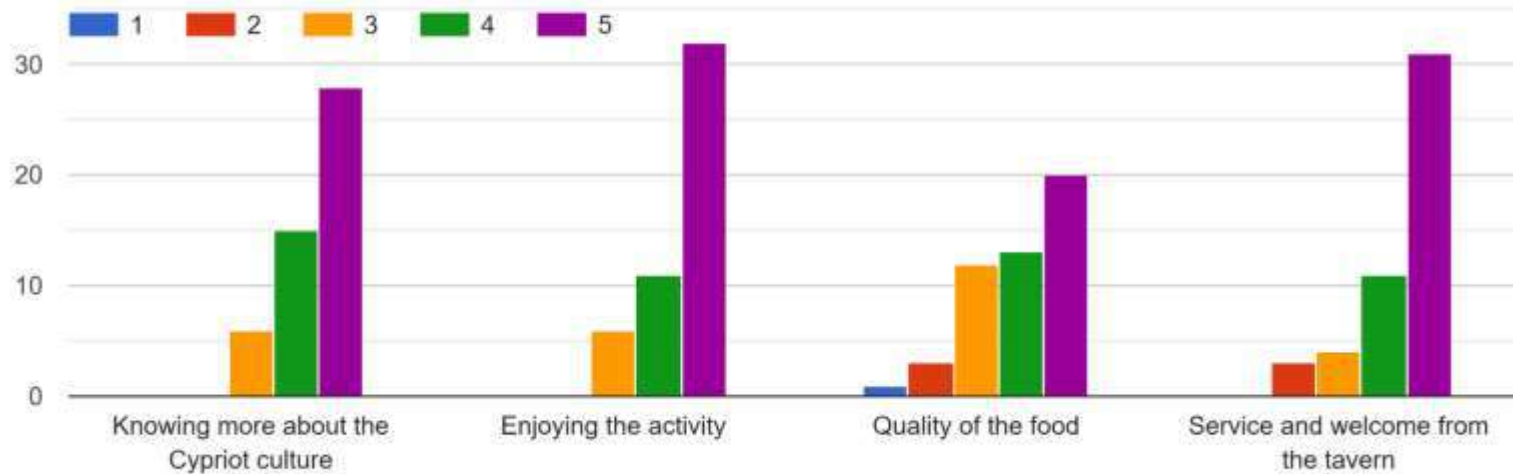

Its great, I have never been to a better accommodation on a project
 Maybe more vegetarian food
 Everything was pretty good
 No. All okay
 Label the food, during lunch you have no cards describing the food (hard for people who are vegetarian or allergic)
 More vegetarian and also vegan options!
 Change the food
 Everything was amazing!
 No very satisfied with everything

Outside Activities

 Ice Breaking Activity at Pissouri village (Tasks activity) (Thursday afternoon). How do you evaluate your personal involvement in the activity according to:

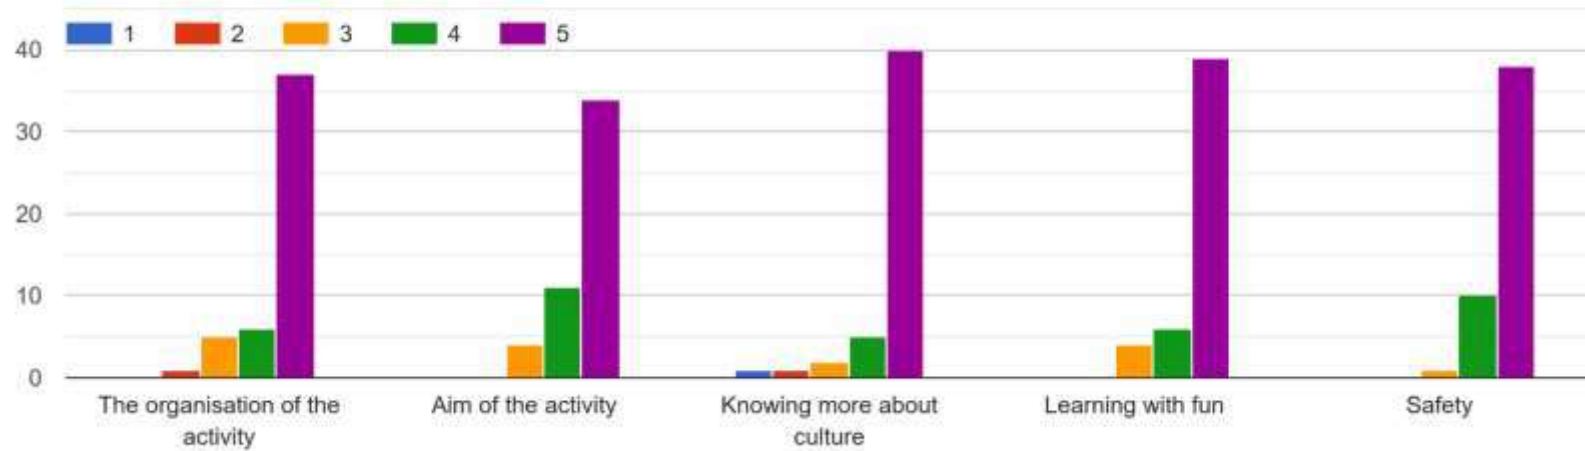

🍷 Ice Breaking Dinner in Pissouri (Thursday afternoon). How do you evaluate your personal involvement in the activity according to:

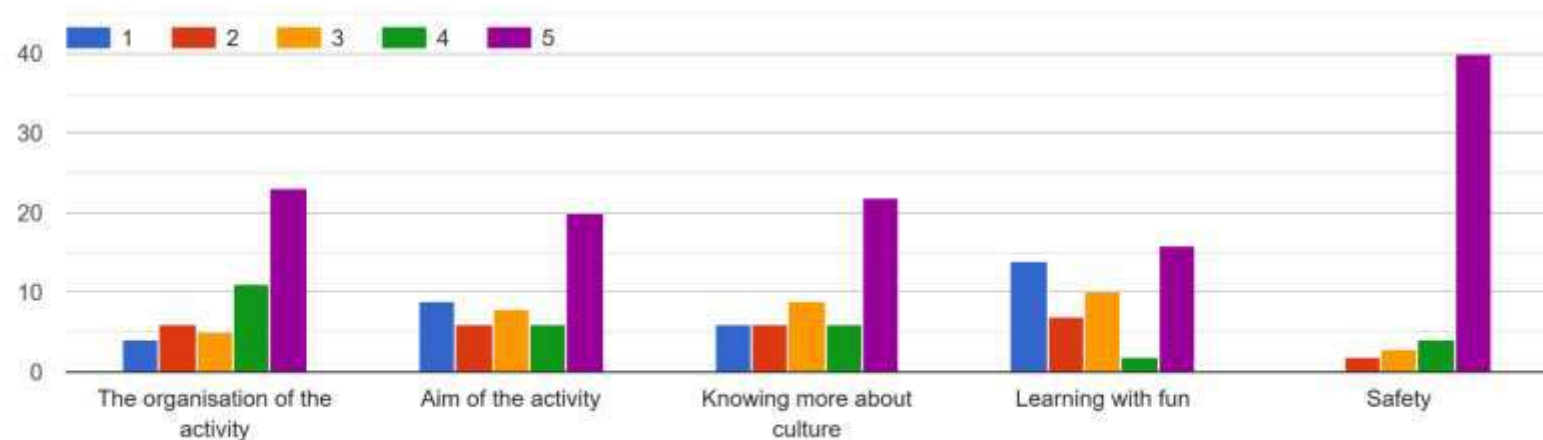

🧑‍🌾 Hiking in Pissouri (Wednesday morning). This was when we went hiking in the morning. How do you evaluate your personal involvement in the activity according to:

 Cultural Visit in Paphos (Tuesday evening). This was the free time you had to explore Paphos after you completed the interviews. How do you evaluate your personal involvement in the activity according to:

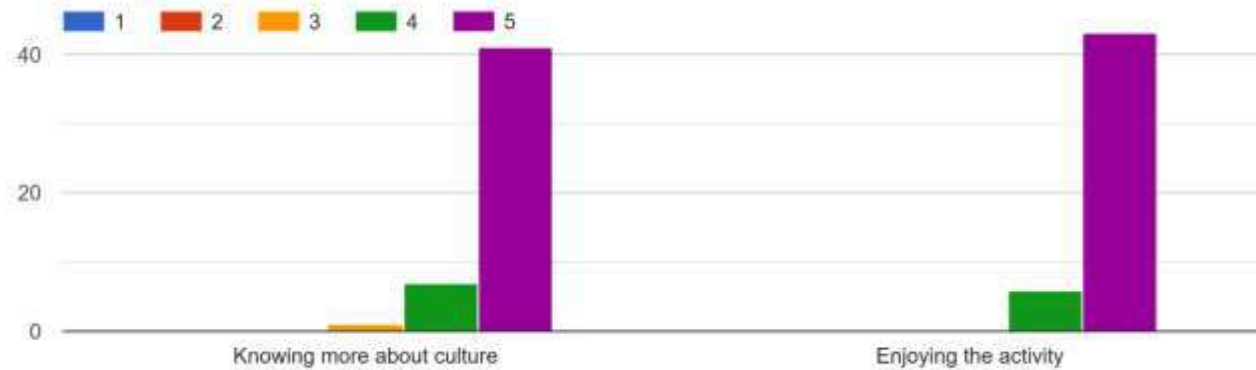

HERIT ADAPT Event in Limassol (final day morning). This was the conference we attended in Limassol. We also had a short cultural visit by Ancient Kourion at this time. ...ate your personal involvement in the activity according to:

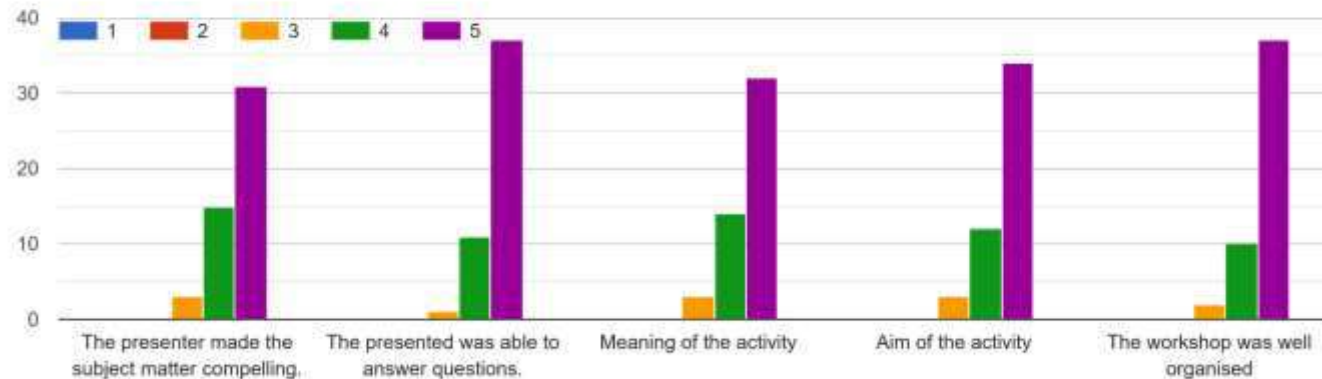

Intercultural/Night Activities

Intercultural nights: How do you evaluate your personal involvement in the activity according to:

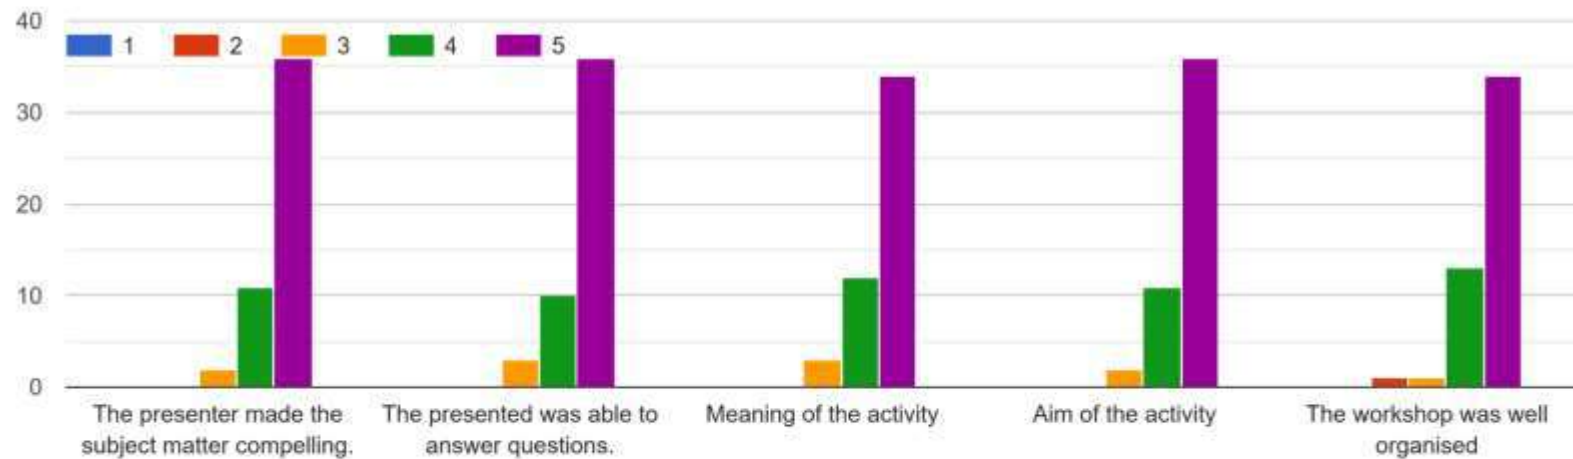

Non-Formal Educational Activities

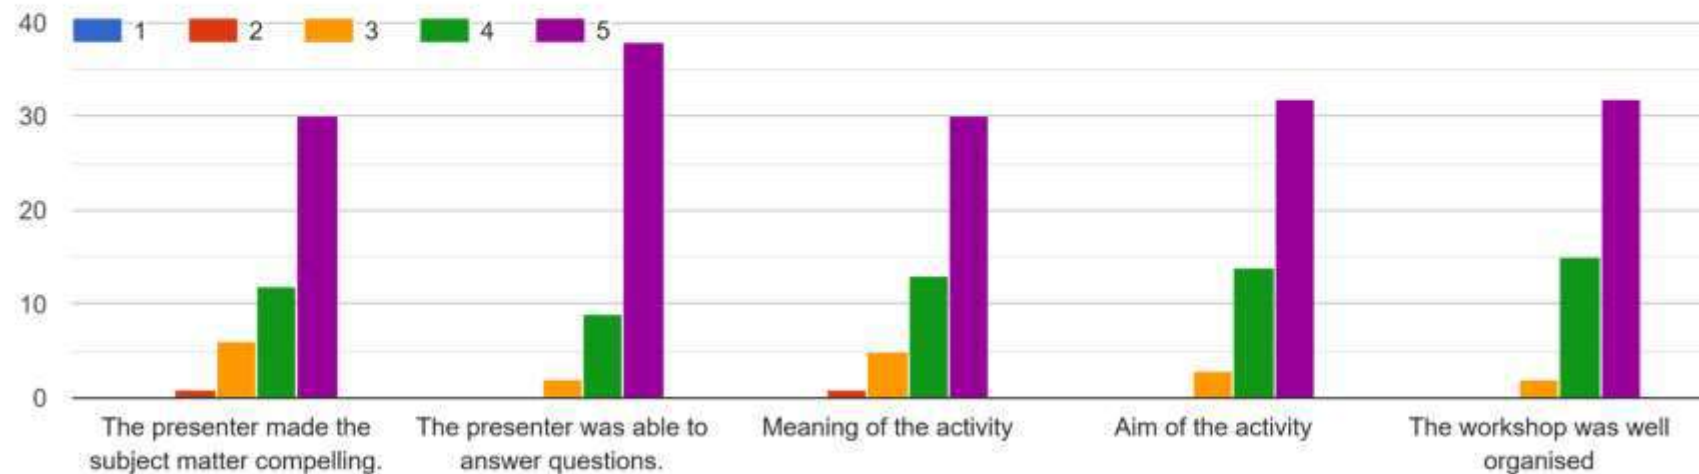

Icebreakers and Team building activities. (Tuesday and Friday morning). These were the activities on the first day before lunch, as well as the morning after. We played different. Evaluate the activities according your expectations:

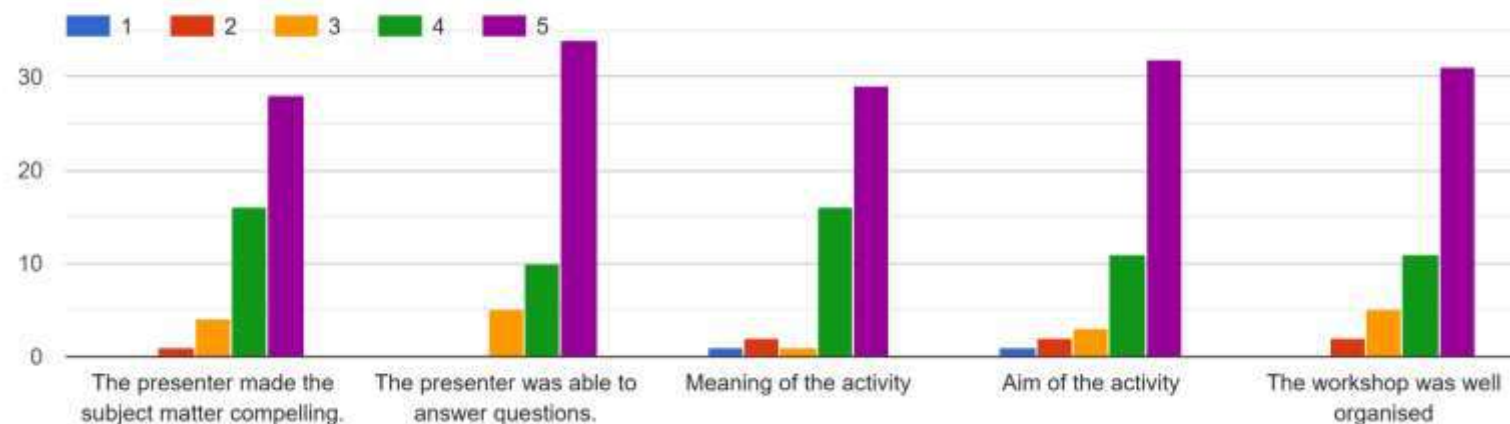

Energizer activities (Every day). Evaluate the activity according your expectations:

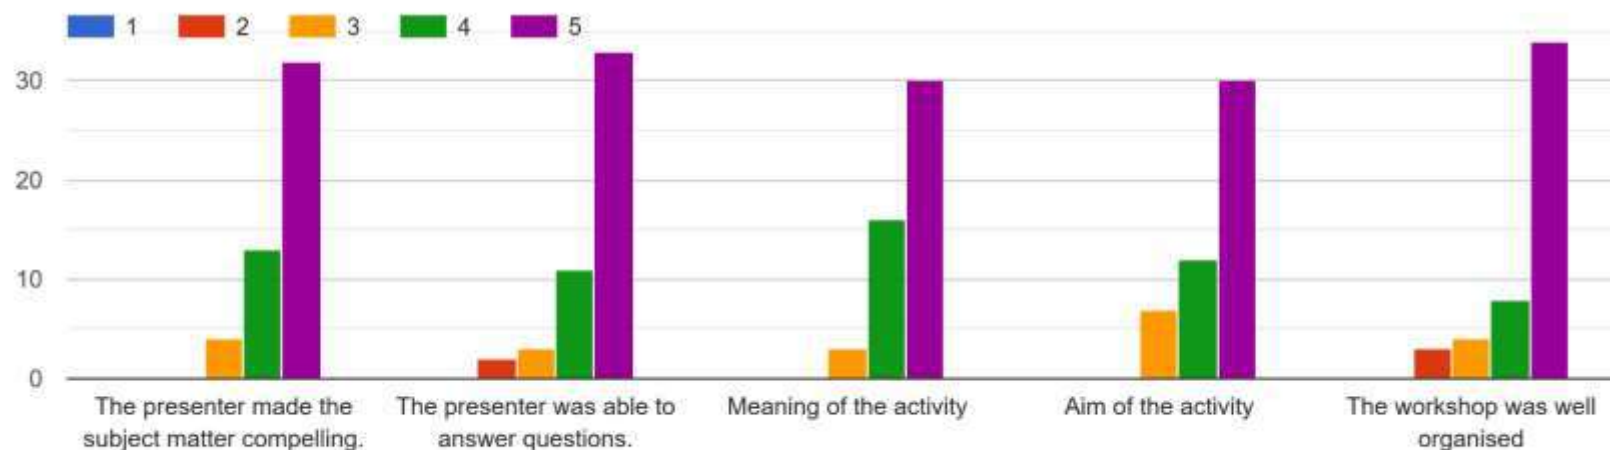

Fears, Expectations, Contributions backpack(Thursday Morning). These was the activity where we shared our expectations of our project. Evaluate the activity according your expectations:

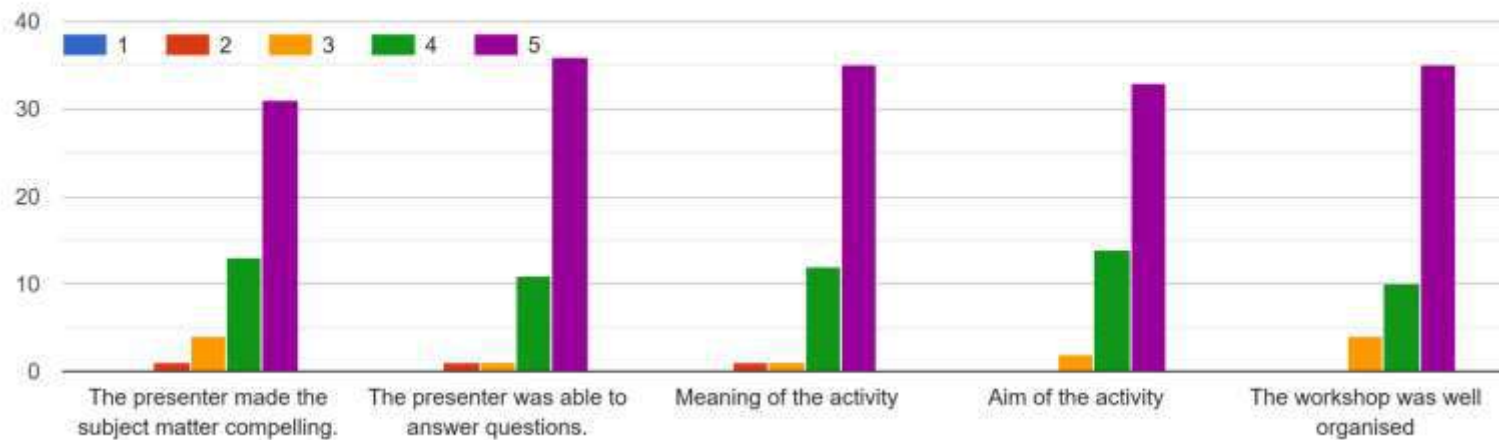

Youthpass 8 Key Competencies (Thursday Morning). This was the mixed group based activity, where we went around doing different mini-activities based on each competency. Evaluate the activity according your expectations:

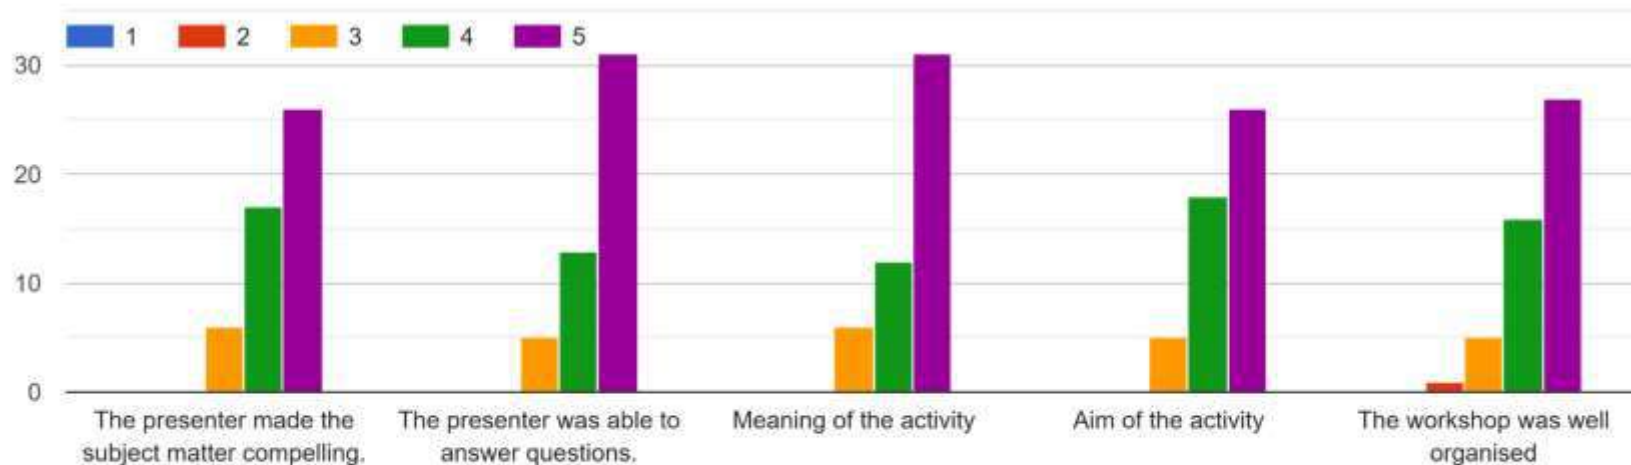

World-Café (Friday morning). This was the activity in mixed groups, based on different aspects of sustainability in different stations. Evaluate the activity according your expectations:

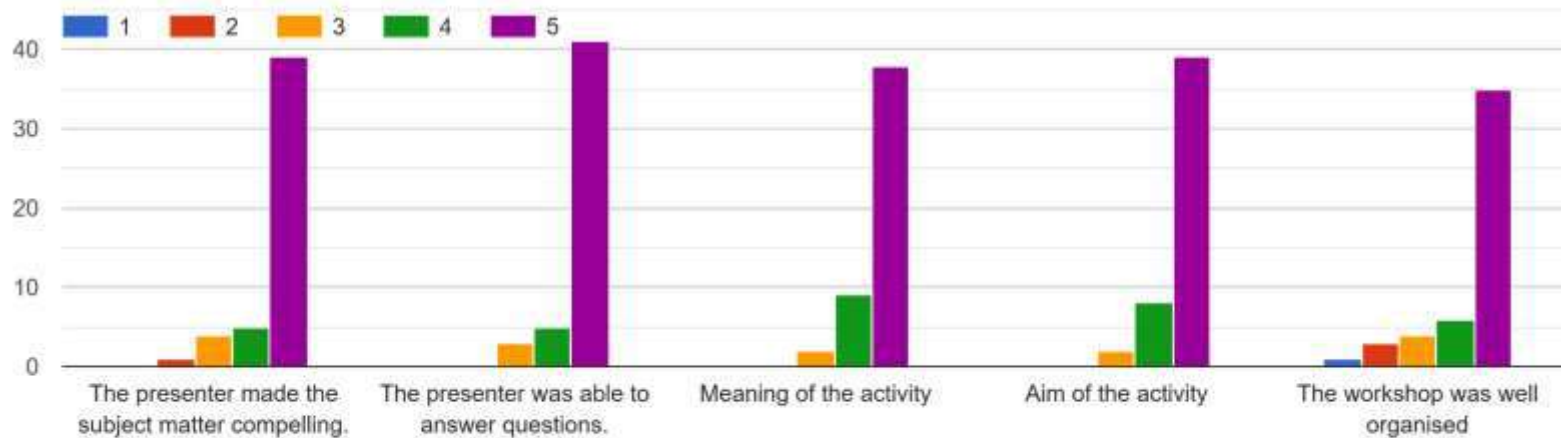

SDG Index and the carbon footprint calculator (Friday afternoon). This was the activity where we learned a bit about how to use data tools such as the SDG Index and the ...lator. Evaluate the activity according your expectations:

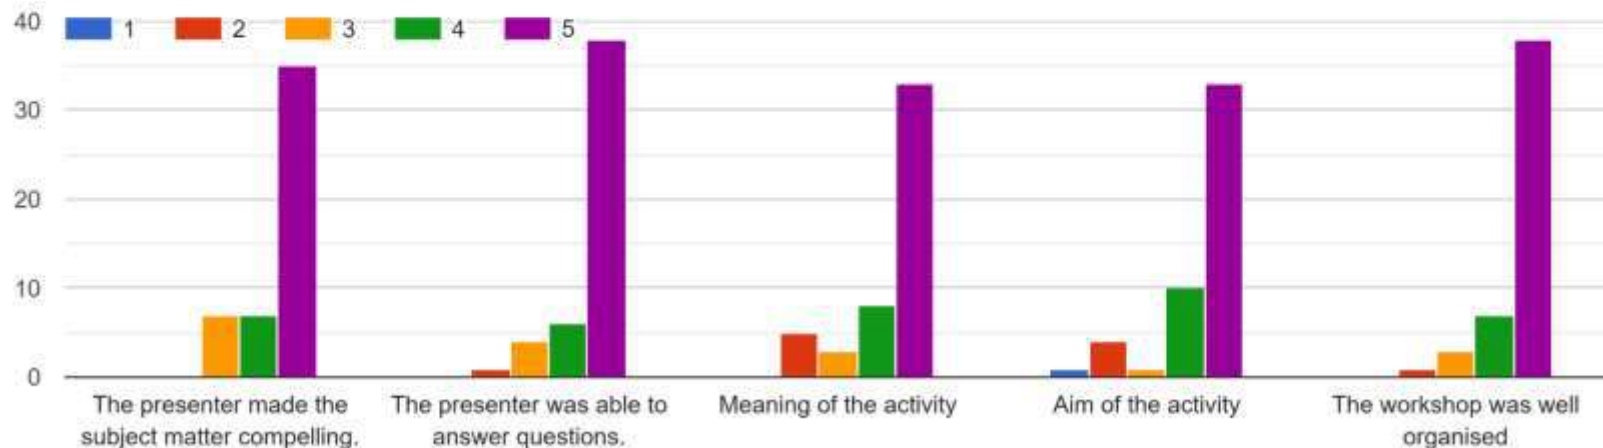

Countries' realities (Friday evening). This was the activity based on your homework before coming to the youth exchange. You presented the current situations and practi...about. Evaluate the activity according your expectations:

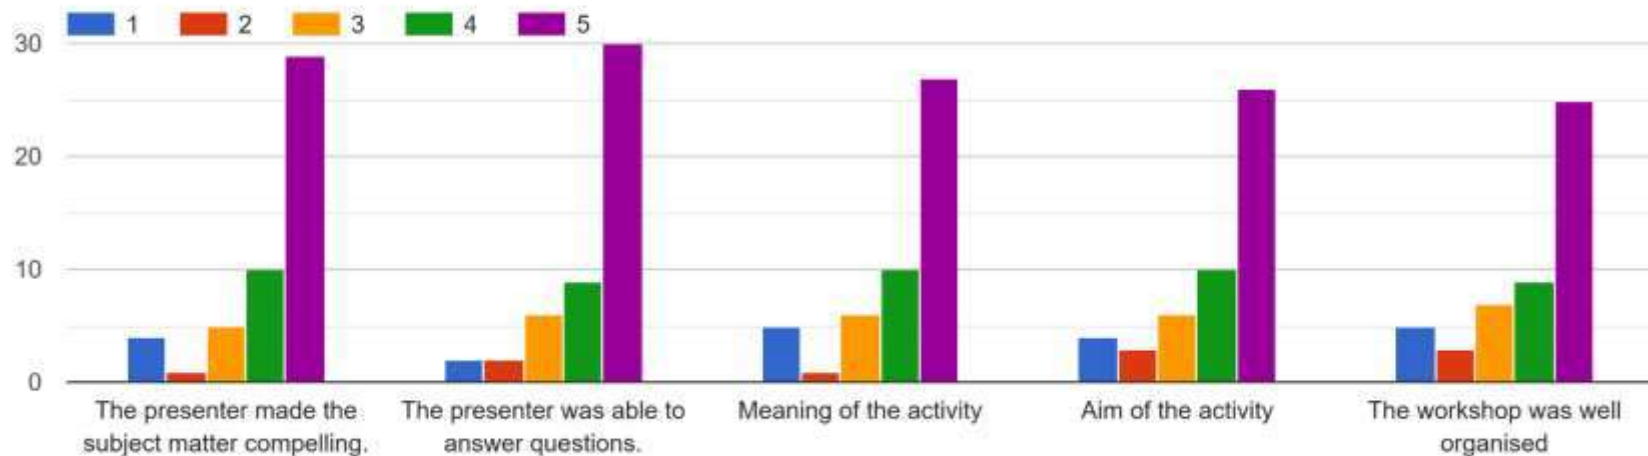

Adopt a beach activity (Saturday morning). This was the activity by Aggelos and Andreas, where we learned about the "Adopt a beach program" as well as trying it out ...ssouri. Evaluate the activity according your expectations:

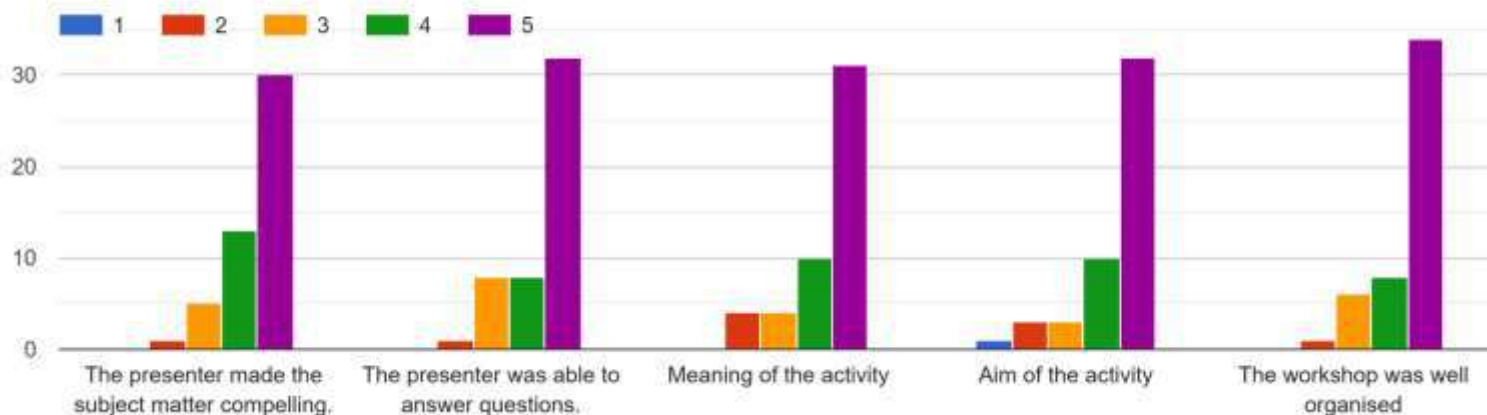

From trash to a message (Saturday afternoon). This was the activity with pebbles, collected from the beach which we painted, and created stories around them. Evaluate the activity according your expectations:

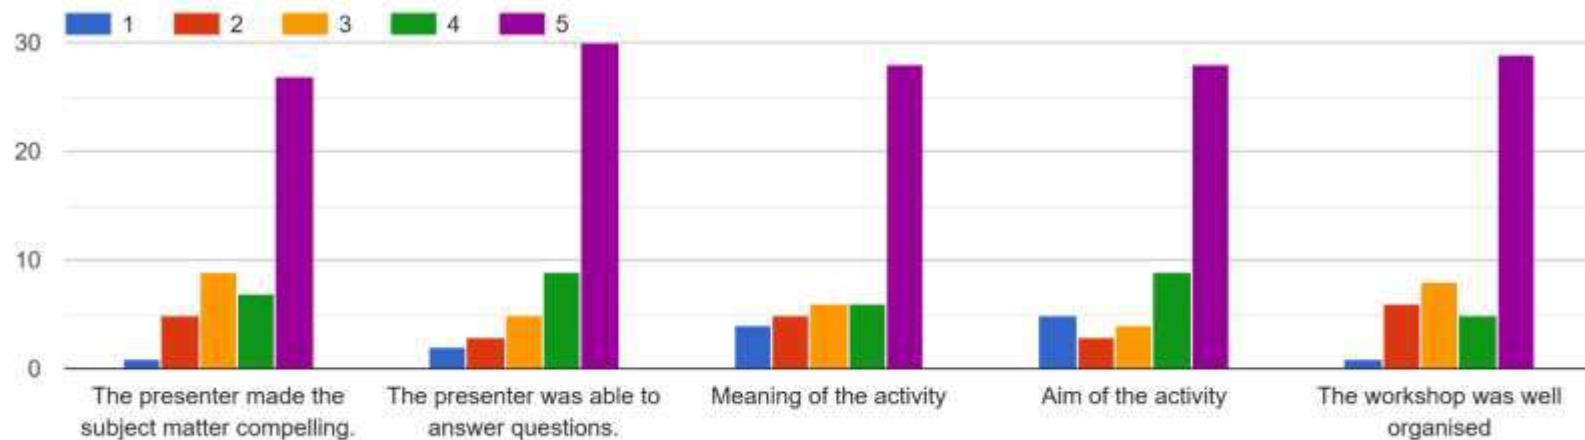

Connection with nature and the body (Saturday evening). This was the calming activity by Stephanie with the yoga mats. Evaluate the activity according your expectations:

 The voice and the environment (Sunday morning). This was the activity where we showcased using theatre different issues with the environment, and the audience hu...ing it. Evaluate the activity according your expectations:

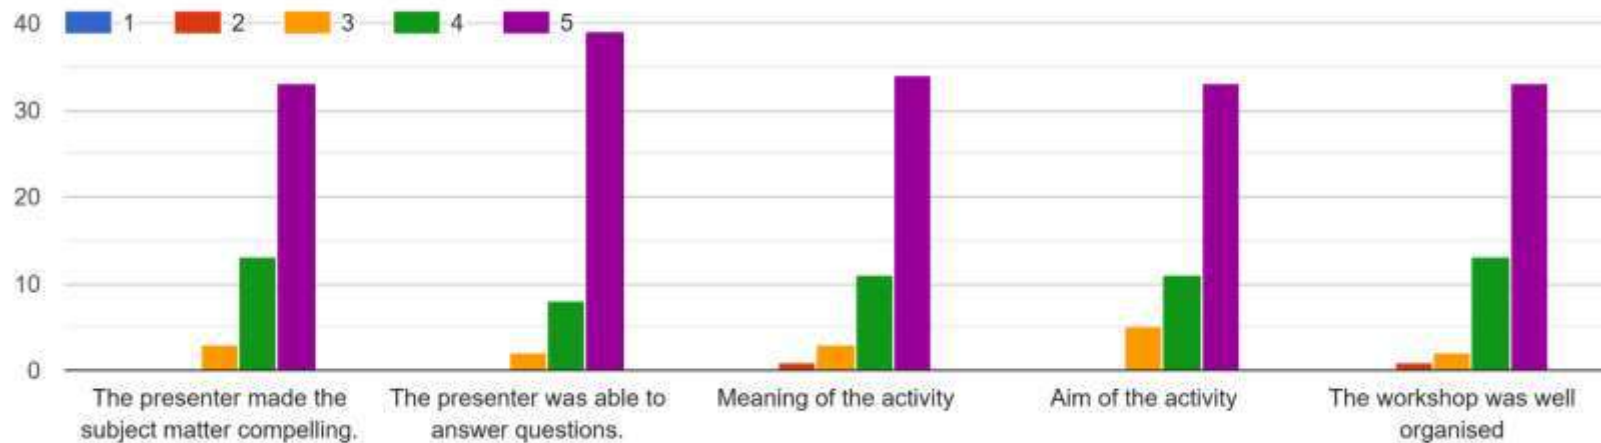

Group leaders sessions (Sunday afternoon). This was the activity by group leaders, with blindfolds and trust, as well as Abigails Tale. Evaluate the activity according your expectations:

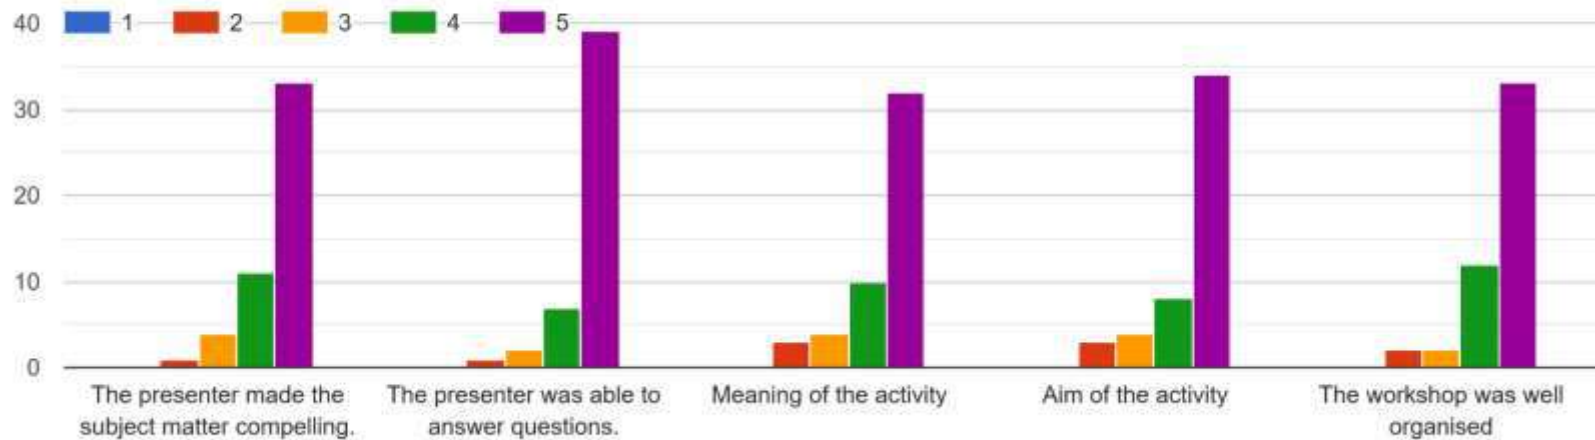

Interview techniques and the TV Channels (Sunday evening). This was the activity where we learned about some speaking and interview techniques in the form of TV channels. Evaluate the activity according your expectations:

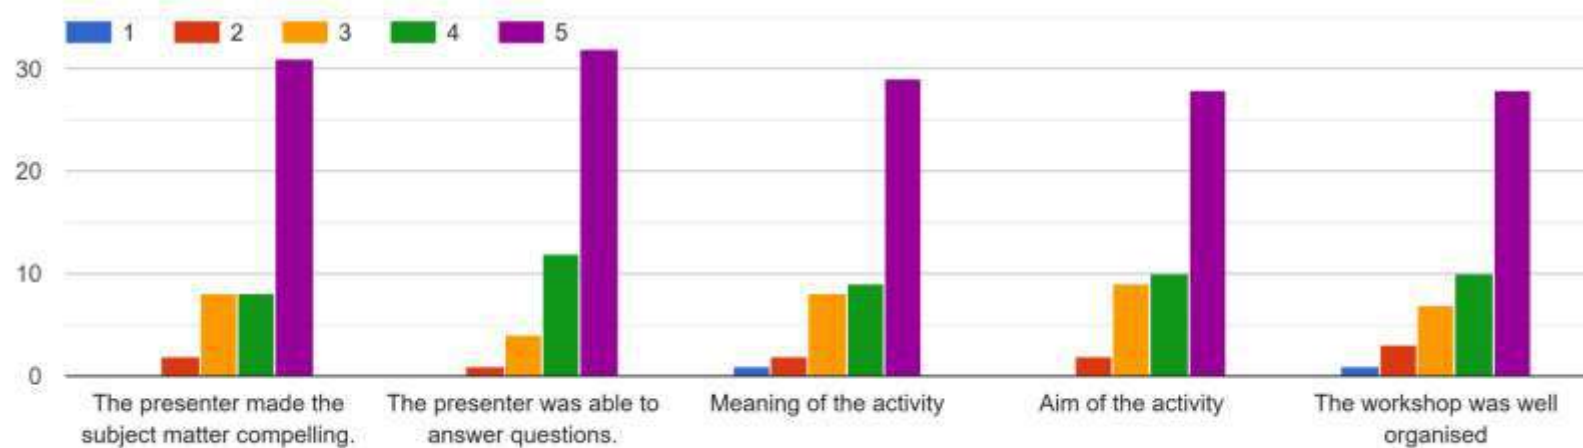

Campaign making (Tuesday evening). This was the activity where we learned and showcased making social media campaigns on different sea based issues, focusing ...more. Evaluate the activity according your expectations:

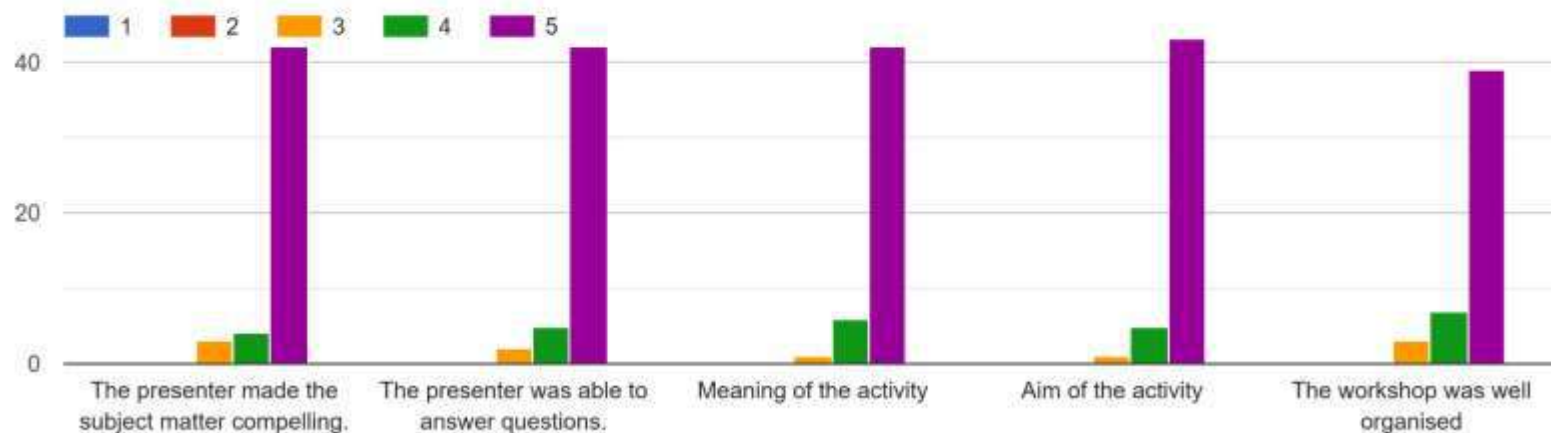

Pitching innovative ideas (Tuesday afternoon). This was the activity with judges, where we went head to head with innovate ideas and ways to get funding for them. Evaluate the activity according your expectations:

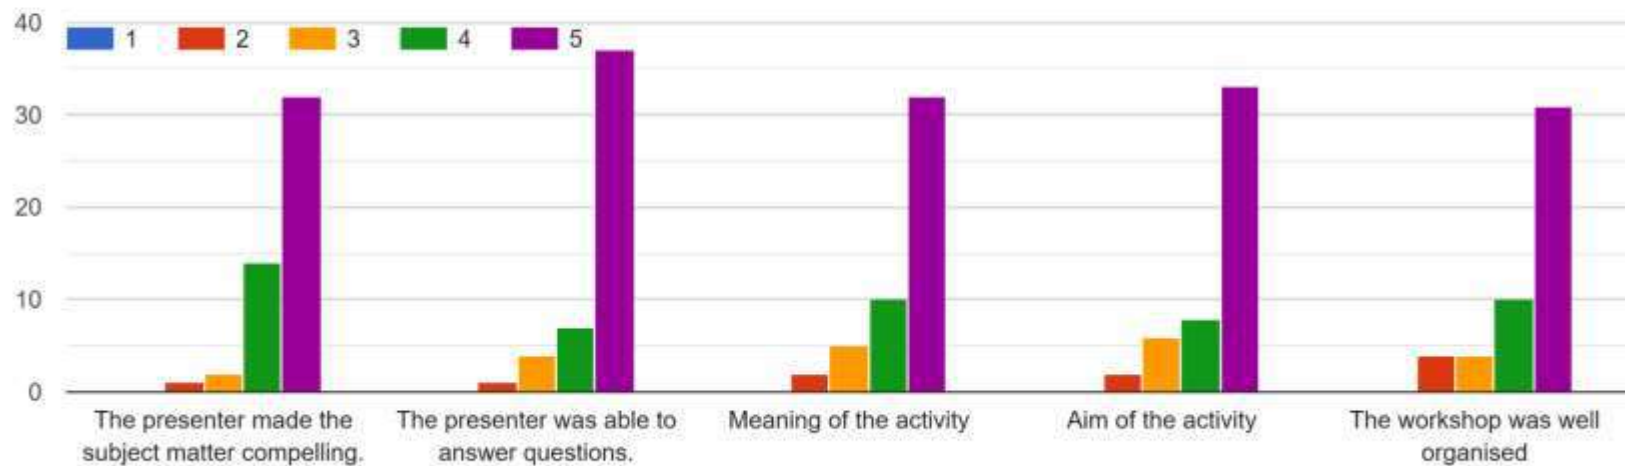

Marine Protected Areas making (Tuesday evening). This was the activity where Aggelos returned, where we created marine protected areas. Evaluate the activity according your expectations:

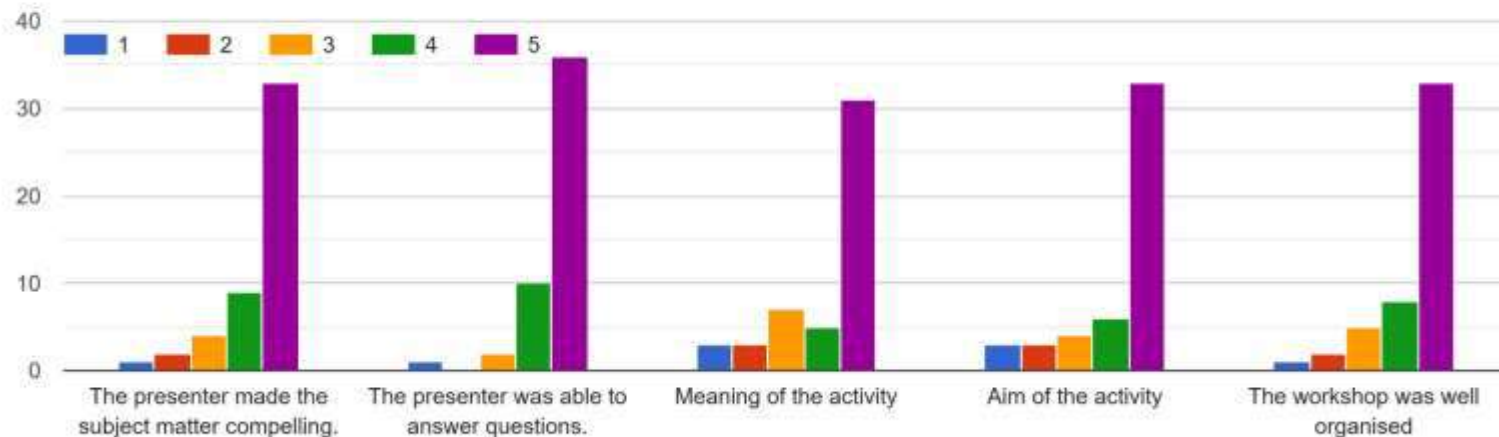

eu Erasmus+ Opportunities (Wednesday morning). This was the activity where Bobbie spoke about all the different types of opportunities Erasmus / the European Co...ers. Evaluate the activities according your expectations:

Visibility and video campaign (Wednesday). This was the activity where we made videos in order to share our learnings further, in 5 different languages with captions. Evaluate the activities according your expectations:

(Floraine's activity) (last activity). The Chaos challenge. This is the short game Floraine showed us with little mini tasks around the accomodation. Evaluate the activities according your expectations:

General Questions

Write your emotional outcome for the organisation and implementation of the YE

I liked it

Well, I tried to be as involved as I could and I really found myself in these activities, it taught me to be more courageous and to know how to speak in public, I am very happy 😊

The organisation was very nice and everyone was really welcoming!

It made me realize the gravity of the pollution and I think I'll be more responsible from now on

It was really cool and I would recommend it to everyone to do an Erasmus

It was useful for all participants

I really liked it in general, I feel like it was aimed rather for the younger audience, meaning it was rather hard to have big age gaps (15-24 years). I think I could have learned more if the age group was less big (meaning it would have been more easily to actually make it suitable for the participants). With this group it was hard to make it interesting for all people as activities for 15 years old were quite boring or unsuitable for 20+ years old... BUT I really like to participate in more Erasmus projects, so learning about Erasmus in general was a great experience. It was great, there's nothing I could've wished for more.

It was perfect

I loved meeting everyone and I'm gonna miss them all <3

I really liked it and I feel that the organisation was very good at making sure that everyone felt comfortable.

The organisation and implementation of the YE helped me develop both personally and professionally. I felt a strong sense of accomplishment seeing the activities come together successfully, and it boosted my

I enjoyed the week a lot and would definitely come again. Thank you for the opportunity! Great youth exchange

I really enjoyed everything

Everything was the best, I really like how friendly everyone was and how we were learning together. The facilitators were the best too, they were amazing and friendly. I hope that everyone felt like that.

I feel very happy, it was an amazing experience. Truly would come back for other projects

Feeling good, well educated about sea pollution, more open minded for other cultures and Erasmus opportunities, happy to be part of the project, sad that it is now over

Feel really good

It will leave a big part in my memories as an unforgettable 10 days spent in Cyprus. I got really aware of the importance and dangers of pollution and it made me think about the pollution in North Macedonia and how much it is polluted and why there is no awareness about the situation

Very good

We did a lot of things which I think were good for young people, there was something for everyone, I could learn a lot of new things. Basically how other people from other Nations think about it, so this was really interesting

In general I feel really satisfied! I had an amazing time and really liked the activities that we did :)

positivity

I became more sensitive to the topic of sea pollution. Became more aware about the environment and the pollution

Everything was really good

I really didn't expect to be able to understand YE so well, I didn't think I would make friends here, I'm so glad I participated

This Erasmus project affected me in a good way, I learned more about other cultures, sea pollution and why it is so important.

I had an amazing time at Erasmus, I got to meet so many people and learnt about different cultures. I have also learned so much from this project, like the amount of marine pollution we have in the seas but I also learned that we are able to help.

It was a pretty good experience that everyone should do one in their life

I'm very happy that I am here, the weather is nice, people are friendly, it is really interesting when you combine fun and serious things

Getting to know new people made me more open-minded and confident in talking English. It especially helped me with presenting in front of other people and creating memories together was an amazing experience.

I became more confident with myself. Also I got out of my comfort zone and I became more social. Very successful organisation with fantastic facilitators and creative workshops

I really liked learning more about sea pollution and different ways to manage it. Also getting to know all these amazing people and sharing this activity. I feel very positive and I loved participating. In general it was nice, and I liked the activities, but some not so nice things happened so personally it was not so nice/ok

Everything was very good

Good.

I really enjoyed my stay here. I've never felt more seen by my peers, and that motivated me to do so much more than what I was willing to do. I met THE BEST people here and THE BEST leaders (thank you Bobbie and Elena for everything you guys are the best 🙌)

I am very emotional about the time. There were some amazing people and unforgettable activities. However, I am also a little disappointed since I do not think that the project was able to actually develop ambassadors for the protection of the sea. We did not gain enough knowledge for that.

confidence in coordinating tasks, managing responsibilities, and collaborating with others. Overall, the experience was rewarding, motivating, and strengthened my commitment to contributing positively to future projects.
Amazing

I think after this project I will go home and be more careful about how I react when it comes to the pollution and the environment.
Overall good and well organized, we had some argumentative moments with a lot of frustration, but the overall experience was amazing and the place was good, i learned new things and opportunities.

I was very happy
I enjoyed the time learning about the environment, pollution, as well as myself.
One of the best organized projects i have ever been and i feel like we have connected a lot as a group.

Which activity had the maximum impact for you?

trip to Paphos
Forum theatre
For me it was the Theater workshop, because we could feel the impacts on our self.
Hiking :)
Beach cleanups and Erasmus Information
Adopt a beach
Cleaning the beach.
Hike and video creative
The lecture about the adopt a beach clean up, but to be honest the clean up itself was also one of the most disappointing once, as I had very high hopes for it. I think this activities should have gotten way more attention and better organisation.
Many of them did but if I had to choose I would have said the tasks at Pissouri village, because since I was a local I knew more about the topics. Also the "adopt a beach" activity had the maximum impact on me since I was one of the two leaders for the day. So many other activities had the same impact on me as well.

Social interaction, cultural night, talks between activities
I think that ones who needed to create things from scratch
The mosaic
Icebreaker activity
The campaign making activity was hard and made my mind work and think a lot, i think i liked it the most.
Cleaning up the beach
The beach clean-up and campaign making for sure.
I really liked we to pafos and interviewed people
Probably the SDG activity.
Any that had international teams, got to met new people
The Adopting a Beach
Time with our group
Cleaning the beach,
Acting
I really like the activity whit the judges
Beach cleanup
Adopt a beach & voice and the environment
Intercultural nights
Forum Theatre
The tasks in Pissouri village

Cleaning the beach
The beach clean up, it seemed very easy at first when you look at the beach it was very clean but when we started cleaning up we were finding more and more garbage the trash was never ending
Beach clean up, hiking
I really enjoyed the active activities like the hike and yoga that we did. Also I think the activity where we went to the beach for a cleanup was very interesting as I learnt all about microplastics and marine biology.
The icebreaker mostly and the energizers (if that's an activity if not ,for me still is ;))
International days and activities
I think cleaning the beach and sorting the litter
Adopt the beach
The campaigns
All of the teambuilding
I loved the theatre, also all the hiking activities made me aware of how beautiful cyprus is

A lot of them (storytelling, worldcafe, adopt the beach- but it wasn't organised well because a few people had to count a lot of things and the other had nothing to do
For me the campaign making was very impactful because it showed me how this project can be implemented in my home region. I would love to actually do the campaign with my team, since creating it was already so fun!
Video making
The activity where we cleaned the beach because I realised that even though the beach looks clean, it is not really
The beach clean-up. I really enjoyed helping out with the trash on the beach and sorting through everything the participants found. I believe it was the most important activity and the one that was the most impactful.
The Abigail's tale, people were more honest and expressed their opinions more freely

Which activity had the least impact for you?

Mystery activity
The event in Limassol
The presentations in Limassol
Connection with nature and body

The MPA because it was very unorganized
Limassol activity. The lecture activity in Cyprus and the visit to Kourion, as well as the second

the presentation conference on our last day felt like a waste of time since the presentations were not connected to our topic and we were the only people there

The hike
Making a device for the sea
The task where we trained to give interviews

Creating device to stop the pollution. Videos
 The storytelling activity. We knew the issues already, yeah, it was about creativity but was a bit unnecessary
 SDG
 Explore pussouri
 When we are in the Limasoll
 World-Café
 I think the Yoga one, because it wasn't really well organized and a lot of people felt uncomfortable when participating.
 Homework presentations
 The hiking. There wasnt any

activity with mr Aggelos, because my team wasn't cooperating unfortunately.
 Pitching ideas was not very helpful and we didn't actually learn interview techniques or any interview preparation
 I can't think of any Hike
 Campaign marketing
 its between the hike and the video making activity
 None of them, I was learning from everything. Probably Limassol conference. The Presentation on Friday. The Workshop in Limassol

The activity on the last day with the presentations.
 None. I didn't like the conference ok the last day, because it was difficult to listen and I didn't see the connection with our topic.
 Conference in Limasol. Ehh i could say Youthpass 8 Key Competencies
 Today's activity in Limassol.
 The afternoon organized by the group leaders/ participants. I feel those workshops were the least thought through and didn't make an impact on me.

I think it was the theatre work that we did.
 The last day wasn't great organizer
 Yoga
 The interview activity seemed really cool and new to me, going up to strangers and asking them to record a video for us
 Yoga
 The last day in general was kinda disappointing and unnecessary...
 Group leaders session -> kinda boring game and unacceptable discussion task (missed the tv channel activity because of how bad it made me feel)

Any message you want to tell the facilitator's team? :)

Maybe give us some tasks to do in Paphos or less time because at some point i got really bored 😊 You should also do the secret friend properly because it has no meaning without randomly choosing your secret friend
 we had a really great time and the leaders were all super nice and anytime here for us!! Thank you
 The best facilitators ever, cant wait to come againg in this venue with these facilitators
 No. Thank you
 I LOVED how Bobbie and Elena worked with us, I will never forget their kindness, energy and creativity!
 Good job:)
 I LOVED THE FACILITATORS AND YOU DID AN AMAZING JOB! The program was very organized and the activities were super fun
 ♥♥♥♥♥
 Thank you for this opportunity ♥
 Everything was perfect
 Thank you, you did a great job!
 Continue make projects with activities like this
 That I like the a activity:)) and how Bobbie represents me
 Thank you for everything

BOBBY IS THE GOAT
 You re amazing👏
 Again, thank you guys for everything. This week was the best of my life, and its all thanks to you. Thank you for all the dedication ♥♥♥
 I think some methods were not effective but you are amazing, keep going!
 I liked it. I loved your energy and i really do think you do your job amazingly
 The facilitators were very fun, innovative, they explained everything well and were overall amazing. 😊
 I really enjoyed it here guys!!! ♥
 Thanks guys! Was great getting to know you!
 No everything is okay
 They are so friendly and awesome people. I loved the way that we communicated and discussed a lot of topics. They were the best with us!!!
 Hope to See you soon
 Everything was really great in general, thank you for all the activities and your implication.
 Although in Paphos I think we could have a little less time or more tasks, I really enjoyed also having time to visit and relax with my teammates.

No
 Everyone was very nice
 Bobbie and Elena you were amazing, a week without you would have been terrible but you always knew how to make us smile and brighten our day
 Everybody was amazing and I had a blast!
 All of you where really nice people and I would love to go to and other erasmus project
 thank you so so much!!!
 Nothing
 Just keep going this way. You are perfect
 Thank you, it was really nice. Maybe try to motivate the people to stay after the intercultural night, because everyone just left and it was kinda disappointing!
 Slip to time tables
 I think it's definitely important to share more information before the project so you're able to prepare better for it. Lots of infos were rather spontaneously (not just for us but also for the leaders). And breaks & free time are important to keep the motivation, especially the last day we had little free time and no coffe breaks... not a good way to end the project.
